

I very much enjoy my satellite radio service that I receive from XM. I travel somewhere every week with my work and being able to stay tuned to weather as it develops as well as the traffic reports is very valuable. I am hopeful you will NOT force XM to discontinue these services. As I am sure you are aware there is no other radio station that provided this quality information coast-to-coast and it has help me several time. Please do not make any changes that would discontinue these services.
